H. Sobel, M. A. Cane, and R. N. Sambrotto, Correction to “A role for ocean biota in tropical intraseasonal atmospheric

variability,” *Geophys. Res. Lett.*, 30(12), 1624, doi:10.1029/2003GL017803, 2003.

[1] In the paper “A role for ocean biota in tropical intraseasonal atmospheric variability” by Hezi Gildor, Adam H. Sobel, Mark A. Cane, and Raymond N. Sambrotto [*Geophys. Res. Lett.*, 30(9), 1460, doi:10.1029/2002GL016759, 2003], the caption for Figure 2 is incorrect. The figure and the correct caption appear below.

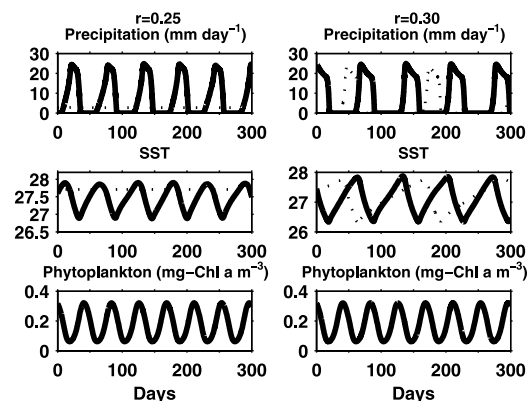

Figure 2. Stimulation of intraseasonal atmospheric oscillations by the ocean biota, for $r = 0.25$ (left) and $r = 0.30$ (right). Evolution of precipitation (upper panels) and SST (middle panels) when ocean biota do not affect light penetration (dotted lines) and when ocean biota do affect light penetration (solid lines). The lower panels show the oscillations in phytoplankton.
